

Designed to Perform. Built to Take It.

Every ounce of engineering expertise and manufacturing experience gained in more than 30 years of delivering and supporting hovercraft and C4N systems will produce a rugged, performance-packed Ship to Shore Connector.

Only Team SSC provides the proven technology to deliver a lower-cost, easier-to-maintain, fully-integrated LCAC replacement—a craft with enhanced capabilities and one focused on the needs of the warfighter.

Visit **Booth Number 34** at Navy League SAS to learn more, and to fly the world's most sophisticated SSC Flight Simulator.
